

JUAN CARLOS SÁNCHEZ

Student of Computer Engineering

Pozuelo de Alarcón, Madrid, ES | +34 646 631 637 | juanki.sgbh@gmail.com

Personal portfolio: juanki019.github.io/portfolio2/

Summary

I am a fourth-year Computer Engineering student at the European University of Madrid. My desire for practical experience is motivated by my strong background in computer science and love of technology. I am a skilled programmer in Java, Python, SQL, web development (HTML, CSS, JS), and Solidity programming. I have experience with Agile techniques, automated and unit testing, and version control programs like Git or SVN. Strong problem solving skills, attention to detail, and a commitment to quality are added to my technical capabilities by the University of Texas at Austin's English Language Program.

Education, Certification & Experience

- 2023 Oct - Jan 2024 Auchan Group
 - Software Developer Internship
- 2021 - 2022 University Of Texas at Austin
 - English Language Program
- 2020 - Present European University of Madrid
 - Computer Engineering (4rd year)
- 2018 - 2020 School San José de Cluny
 - Baccalaureate of Scientist-Technological
- Certification:
 - Fundamentals of Digital Marketing (Google)
 - Decentralized Autonomous Organizations DAO Course

Technical Skills

Programming Languages:

- Java, Python, SQL, (HTML, CSS, JS), C++, Assembler

Soft skills: Problem solving and critical thinking, Responsibility, Strength in continuously learning new technologies and tools, Attention to details

Developer Tools:

- IDEs: IntelliJ, Pycharm, Eclipse
- Frameworks: Spring, React, Maven

Language:

- Spanish - native
- English - advanced
